REACH Declaration for Articles Provided by Haydon Kerk Motion Solutions Inc.

Haydon Kerk Motion Solutions Inc. (Haydon) is aware of the EU legislation controlling and restricting certain chemical elements under the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) program. Haydon is a supplier of **articles**, products that do not "intentionally release" chemicals, and therefore we are not bound by the REACH regulation regarding chemical registration (Note: we do not produce or distribute stand alone **chemicals** or **preparations**).

This European Union REACH regulation number 1907/2006 was updated as of 07 July 2017 adding legal and contractual requirements (web-link shown below) and now contains (174) **substances of very high concern (SVHC)**.

Article 33 of REACH requires supply chain participants to communicate the presence of Substances of Very High Concern (SVHC) over 0.1% by weight in their products. SVHC are identified on the Candidate List by the European Chemicals Agency (ECHA). New SVHC are added to the Candidate List at least two times annually.

The Candidate List of substances of very high concern for authorization is published in accordance with Article 59 (10) of the REACH Regulation.
The latest Candidate List of (169) SVHC can be found at the following URL:

<http://echa.europa.eu/candidate-list-table>

We (Haydon) declare; to the best of our knowledge; that our motor, lead screw assembly and motorized linear slide products do not contain any of these substances in concentrations in excess of 0.1% weight by article. Haydon will continue to review the current and future additions to the "SVHC list" and will immediately notify our customers if and when a SVHC substance above the 0.1% level is discovered in our product.
